Anschutz Engineering Center

- Work will continue to complete the remaining punch list corrections. Exterior landscaping is complete. The work on the detention pond is nearing completion. The utility work at the back is still in progress. Exact dates will be shared once available. There will be punch list corrections on the exterior facades of the building in the next few weeks.

Engineering & Applied Science Building Renovation

- The architecture and engineering team has completed the Design Development phase of the design. Final user group meetings are being held now to refine the design. Construction is expected to be completed in 2 phases starting May 2025 for 2 years. The UCCS Project Team has reached out to multiple Colleges looking for potential office swing space to support academic operations through the project schedule. We anticipate building classroom space on the 2nd floor of Kraemer Family Library for use in spring 2026.

Facilities Strategic Plan

- The deadline to complete the plan has been extended. Board review will start in October and is anticipated to be finalized with approval in February. Additional presentations are wrapping up across campus. A draft of the plan can be found on the UCCS Planning, Design & Construction webpage. Additional feedback can be sent to pdc@uccs.edu and is requested by October 18th.
